Bicycle Rack Options

This list has been compiled by the Ontario By Bike Network. It is intended to provide information to Network participants on a variety of bicycle rack options. When investigating options consideration should be given to: placement location, duration of parking, frequency of use, quality of system, maintenance, and budget.*

We also have this sheet available: www.ontariobybike.ca/bikeparking

An additional suggested resource is the Ontario Traffic Manual Book 18 – Cycling Facilities, December 2013. Bicycle parking facilities are covered in detail pages 173 to 179, providing technical information and recommended guidelines for bike parking facilities.
Download PDF at: Ontario Traffic Council - OTM 18 Bicycle Facilities

Abcrecreation in cooperation with Dero and Greenspoke offers a variety of different solutions for bike racks and stands. The catalogue ranges from classic designs to custom built solutions.

Advantage Bike Racks – supply bike racks, lockers and security fencing for bikes.

Ape Playground is located in Point Edward, close to Sarnia and carries a large variety of different bike rack options for purchase. Call 1-800-463-2361.

Barco Products – Toronto business (not a retail location). Products include outdoor and indoor solutions such as Commercial Bike Racks, Stands and Ring and Post. Call 1-866-538-5848

Bike Rack Co. supply lock-ups and post ring design stands as well as bike storage solutions. Call 1-(800) 236-7820

Beyond the Garage Door has an amazing array of bike racks, lockers, and other bike storage solutions for residential and business properties. Call (647) 931-0800

Build your own
Handy carpenters can search the internet for instructions on how to build bike racks. Examples: Attached you can follow the instructions from Universal Forest Products on making your own bike rack. More examples: Words and Wood Basic Bike rack instructions
Metal workers can design an original looking post and rack system that suits your location. See attached for example.

Cora Bike Rack – make the secure Expo Bike Racks.
Call 1 (800)-739-4609 or visit Cora Bike Racks

Dero in Minneapolis, MN manufacture commercial and custom designed bike racks, lockers and shelters. Dero has been supplying municipal and landscape architects across Eastern Canada for the past 9 years. See the attached listing for a sample of their product line.

Global Industries have a range of bike racks and bike storage solutions including double-decker bike racks. For prices and more information call 1 (888) 645-0878.

Greenspoke designs and manufactures bike parking solutions with creative and custom designs to fit any application. Canadian made and designed, our products include attractive bike racks, storage boxes, shelters and functional repair stations.

Halt Inc. is a Montreal based provider of urban mobility and cycling infrastructure such as storage, repair and security equipment that can be installed in cities, parks, buildings

Lowes stock the ProStor 2 bicycle floor stand. This is a light weight structure not recommended for long term parking and not suitable for high end road bikes due to 'wheel bender' loading style. These structures need to be secured to ground – hardware not supplied. It is pictured in attachment below. See Lowes for nearest location.

Mountain Equipment Co-op sell the Swagman City Series bike racks as well as other options for secure lock-up. Shop on-line or visit their website for store locations.

Northern Cycle carry the Saris Mighty Mite Parking Rack Upright, a metal bike rack holds up to 6 bikes and comes in a box, easy to assemble. Email sales@northerncycle.com or call 1 (905) 619-8875. For more information see attached price sheet.

Parco Products carry a range of bike racks for residential, commercial and municipal use.

Rack Attack carry bike racks and bike stackers suitable either for residential or for commercial use. Shop online or call 1 (888) 77-RACKS (72257)

Racor make a range of bike storage options. You can find their PBS – 2R Two – Bike Floor Stand on Amazon.ca

Reliance Foundry Co have some very innovative and good-looking bike racks. Contact them directly for pricing and further information. Telephone: Toll Free: 1 (888) 735-5680

Sport Systems Canada – carry a decent range of racks and lockers. Call 1 (877) 600-4667 for information or to order.

Urban Bicycle Parking Systems - BC
Call for pricing – 1-(888) 717-8881 - 10% discount if mentioning Ontario By Bike / Welcome Cyclists Network

Urban Systems provides strategic planning, engineering, environmental science, and urban design services to both public and private sector clients throughout Western Canada.

Bike Fix-it Stations

Bike Fix-it stations aim to provide public access to tools that allow self-maintained repairs and maintenance for cyclists. Providing access to such stations ensures the option to conduct basic repairs outside of opening hours or in locations where there is no bicycle repair store within an appropriate distance.
Considerations should be given to location of the repair station, quality, durability, types of tools included and ensuring tools cannot be stolen. An example for tools to include could be wrenches, turners, screwdrivers and spoke adjuster. A tire pump should be included as well.

BikeChain Bicycle Fixing Stations maintains a number of public repair stands on campus that can be used for small bicycle repairs and maintenance. See the website for additional bike fix-it stations across the Greater Toronto Area

B!ke Community Bike Shop - repair stands throughout Peterborough that provide 24 hour access to tools and pumps, ensuring repair options outside of opening hours.

Dero offers different bike fix-it stations with attached tools and additional pumps. Most parts can be ordered separately to replace broken or missing tools and equipment.

Greenspoke Bike Parking Solutions produces a variety of free standing bicycle repair stations that offers hanger to lever the bike for easy accessible repairing.

Halt Inc. – In addition to rack and stands, Montreal based Halt Inc. also offers a variety of bike fix stations. For more information see attached information sheet.

UNIVERSAL FOREST PRODUCTS

Bike Rack

Materials You Will Need

- 10’ of ProWood® 2 x 4
- 15 Deck Necessities® Balusters
- One Box Of 2” #6 Galvanized General Purpose Screws
- One Box Of 1-1/2” #6 Galvanized General Purpose Screws

Tools

- Drill
- screw driver
- saw
- tape measure

1. Assemble The Frame

Measure in 6” from one end of both 33” side boards.
Place one of the 24” frame pieces at this mark to allow for a 6” overhang.
Place the other 24” frame piece flush with the other end of the frame side pieces and attach.

2. Assemble The Wheel Guides

Put the wheel guide balusters on the bike rack frame as shown. Note: You can adjust the space between the wheel guides to accommodate your tire widths (standard spacing is around 3”).

3. Strengthen The Wheel Guides

Attach a 24” baluster underneath the peak of all four wheel guides.

Build your own

Metal workers can design an original looking post and rack system that suits your location. See below for an example.

More inspiration can be found online. E.g. https://www.diys.com/bikes-racks/
